

## GRAND JURY PROBE BEGINS WEDNESDAY

Judge Sparks Orders Investigation of Alleged Law Violations in This County

### NEW PANEL IS DRAWN

Shooting of Mrs. Bert Wilson by Her Husband, to be Among Matters First, it is Expected

The Rush County grand jury was ordered for service Wednesday by Judge Will M. Sparks, and several new members were drawn for service, and were notified to report in the morning.

The six men who will sit as grand jurors are Frank Megee, Homer Powell, Rushville; John Stoten, Center; Albert M. Hite, Richland; D. O. Altier, Orange; Clemmie P. Miller, Walker.

Foremost among the investigations, it was intimated that the probe into the shooting early Sunday morning by Bert Wilson, would be taken up. Wilson shot his wife, Margie Wilson, early Sunday morning, and injured her, although her condition today was reported to be encouraging.

Mrs. Wilson was able to come down to a physician's office this morning, where an x-ray was taken in order to locate the .32 calibre bullet which imbedded itself in her chest.

The x-ray disclosed the fact that the bullet was not in any dangerous location, and no effort would be made to remove it, unless some unforeseen complications should arise.

Mrs. Wilson did not have any signs of fever, according to Dr. J. M. Lee, the physician, and it is expected that no ill effects will result. A serum treatment to prevent poisoning or complications from the bullet, is being administered.

In the meantime her husband is held in jail and the grand jury will probably take up the case when it convenes in the morning.

The grand jury also is expected to probe other alleged violations of the law.

Alleged open violation of the liquor laws which figured in the murder trial of Cassius Flowers at Muncie, may be among the things to be investigated here.

The grand jury has not been used in Rush county since about this time last year.

## COUNTY CONVENTION MEETS ON SATURDAY

School Children Have Elected Their Delegates Who Will Assemble Here to Register Votes

### TO PICK A REPRESENTATIVE

The schools of Rush county will hold their "county convention" here Saturday morning, when the delegates will meet and elect a representative from the list of nominations and who will go from here to sit in the Junior state legislature to be held next month in Indianapolis.

The schools of the county have held elections among themselves in order to elect a delegate to the county convention. Each school also is busy pulling for the election of a county representative, and several candidates are after the place.

The list of delegates selected from the high schools are as follows: Katherine Halterman, Webb; Lawrence Harrison, Milroy; Franklin Mallin, Rushville; Merrill Walker, Raleigh; Adrian Eckert, Gings; Jesse Woods, Arlington; William Benner, Center and Robert Frow, Homer. The delegates from Glenwood and Carthage have not been certified.

Some of the aspirants for election at the convention are Naomi Nash of the Gings school, Franklin Miller and Lawrence Davison of Rushville school, and it is said that Carthage, Milroy and Raleigh each have a candidate. The session here will begin Saturday morning at ten o'clock in the assembly room of the court house.

## HELD FOR GIVING A BAD CHECK

Paul Floyd, Held at Anderson, to be Returned Here Today

Police Chief Blackburn received a telephone call this morning from officers in Anderson, stating that they were holding Paul Floyd, who is wanted in this city. According to the police chief, Floyd is charged with passing a bad check for \$10.75 given in payment to George Meyers, 325 East Eighth street, a grocer.

The check was given last Saturday, according to the police, and returned because of not sufficient funds. Floyd lives in Anderson, and the police there were notified to arrest him. He was to be returned here late today to face trial in police court.

## FOWL INSPECTION IS STARTED TODAY

Eleven Rush County Veterinarians Pledge Support to Movement to Prevent Spread of Disease

### ASSIGNMENTS ARE ARRANGED

Object is to Prevent Destruction of Business With Income of \$1,750,000 Annually in County

All of the veterinarians of Rush county, eleven in number, pledged their support to the campaign to prevent the spread of the European fowl pest in the county, at a meeting at the court house Monday night, and this morning began the inspection which will cover every farm.

The meeting of veterinarians was called by Dr. N. G. Wickwire, a federal inspector, who was assigned to Rush county in an effort by the state of Indiana to stamp out the foreign fowl disease, which, it is feared, may do irreparable damage to the poultry of nine eastern Indiana counties.

"Rush county produces one and three-quarters million dollars worth of poultry each year," said H. D. VanMatre, county agent, today. "The object of Dr. Wickwire's work in the county is to co-operate with the local veterinarians and not permit this income to be destroyed by the foreign pest."

At the meeting last night at the request of Dr. Wickwire, each veterinarian in the county assured him they would give him their individual effort in making the survey in Rush county complete. The eleven men were assigned as follows:

Ripley township, Dr. Gause; Center township, Dr. Hancock; Washington township, Dr. Hall; Posey township, Dr. Gordon; Jackson

## COUNTY PHYSICIANS HOLD FINE SESSION

Eighteen Members of County Society Hear Addresses by Two Specialists of Indianapolis

### TALKS ARE ILLUSTRATED

Eighteen physicians of Rush county, members of the Rush County Medical society, gathered Monday night at the hotel Scanlan for their regular monthly meeting and banquet, and an excellent program was rendered.

The meetings are becoming better attended each month, and interest is strong in the sessions. The banquet was a steak dinner, served at the hotel, and following this was a program.

The speakers were Dr. J. H. Warvel and Dr. Robert Moore, both specialists of Indianapolis. Dr. Moore is a heart disease specialist, and his lecture was illustrated with lantern slides, and was of considerable interest to the local physicians.

Dr. Warvel, who is in charge of the laboratory department at the Methodist hospital in Indianapolis, gave a splendid talk on laboratory work and the value of such work for practitioners. He illustrated his address with a chart, and both talks were highly received by the county physician.

## INSTRUCTS JURY TO FIND FOR W. B. BRANN

Judge John C. Craig's Action Has Effect of Bringing Liquor Case to Abrupt Ending

### RULES OF DEFENSE MOTION

Says Blame Can Not be Placed on Court or Prosecutor as Witnesses Changed Evidence

The criminal case in the circuit court Monday, before Judge John Craig of Greensburg, which was trying Will B. Brann, former captain of Company C, came to an abrupt end about three o'clock in the afternoon, after the state had finished with their portion of the evidence.

The defense filed a motion to dismiss the defendant on the joint grand jury indictment, charging him with selling liquor, Judge Craig sustained the motion, and instructed the jury to return a verdict of not guilty, which they did without leaving their seats in the jury box.

In sustaining the motion, Judge Craig stated that the cause of the dismissal could not be blamed upon the court, or upon the prosecutor, asserting that the courts could not be held responsible for evidence given before a grand jury, and which was changed by witnesses at a trial.

The evidence given before the grand jury a year ago was not taken down by the court reporter, and it was pointed out that if it had been transacted in that manner, witnesses would be liable for arrest on charges of perjury.

The witnesses faltered in their testimony, according to Prosecutor Ketchum, in being explicit in giving facts to which they had sworn before the grand jury, and which some of them had forgotten in detail.

Such was the case of Raymond Finney, he said, who had testified before the grand jury that he had paid Brann \$2 for a quart of liquor. At the trial, he couldn't remember the exact amount paid for it, nor could he recall that he had ever paid him, asserting that his best recollections of the matter were that the officer was to keep the money from his pay.

Another witness, according to the prosecutor, changed the time of a transaction in liquor, making his date in the testimony at the trial, a difference of one year from what was charged in the grand jury indictment.

## TO INVESTIGATE MONOPOLY CONTROL

Federal Trade Commission of Make Inquiry Into Control of Bread, Tobacco and Electricity

### SENATE ACTS ON RESOLUTIONS

Charged that Bakeries are Being Swallowed up by One Gigantic Baking Corporation

By PAUL R. MALLON  
(U. P. Staff Correspondent)

Washington, Feb. 10.—Bread, tobacco and electricity were the subjects of investigation by the federal trade commission today under authority of the senate.

To learn whether it is true, as charged, that monopolies control the production and distribution of these three commodities, the senate voted to look into conditions in the industries.

The tobacco and electricity investigations were sanctioned by adoption of the Ernest and Norris resolutions. The bread probe previously was initiated by a resolution backed by Senator LaFollette.

The commission's task is to investigate specific charges as follows:

**BREAD**  
That bakeries of the country are rapidly being swallowed by one gigantic baking corporation, whose alleged control of prices costs the nation \$500,000,000 a year in unwarranted high bread prices.

**TOBACCO**  
That the American Tobacco Company and the Imperial Tobacco Company of London by mutual agreement boycotted southern tobacco farmers co-operatives, buying their tobacco supplies elsewhere at higher prices and that they agreed to let each other have absolute monopolies in their respective countries.

**ELECTRICITY**  
That the General Electric Company is a gigantic power "trust" dominating every electric light bulb in the country, through subsidiaries.

The commission will report its findings to the department of justice. If the department finds evidence of law violations, appropriate action will be started.

## HAD THE POWER TO DESTROY A NATION

Lincoln's Greatest Single Act Was When He Decided Issue of State Sovereignty, John Shields Declares

### SPEAKS TO KIRO CLUB HERE

Pictures Great Human Qualities as His Elements of Greatness—Virtues he is Known by

Lincoln's greatest single act was when he decided that a nation has a right to coerce a sovereign state, John Shields of Seymour, an authority on the life of Lincoln, declared in an address before a joint meeting of the Kiwanis and Rotary clubs today noon, at the Social club.

Mr. Shields spoke to the high school at 2:15 this afternoon, immediately following the Kiro meeting. "When Fort Sumpter was fired on, Lincoln had the power to destroy a nation in an hour," Mr. Shields stated. "The question was whether a nation could coerce a sovereign state and his answer rang the death knell of state sovereignty and marked the birth of a nation."

The Lincoln student held the audience of almost 100 men spellbound during the luncheon address, in which he pictured the great human qualities of Lincoln as his elements of greatness.

"He was a leader of men," said Mr. Shields, "but the grandeur of power never appealed so much as his human qualities. He was honest and affectionate and had faith in right and it is these virtues that he is best known of men."

"He known best as 'Honest Abe' because honesty was his predominant trait, and in 'Honest Abe' lies the lesson for us, because each of us in quality of honesty may be Lincoln's peer."

"In the larger sense, Lincoln does not belong to any country or any month," Mr. Shields asserted, commenting upon the fact that February was the month of both Lincoln's and Washington's birthdays.

In small things, the speaker pointed out, Washington and Lincoln were different—one a still engraving, the other flesh and blood; one austere, the other colloquial. Both in great things they were alike, he continued, in that both had vision and foresight.

No first class biography has ever been written about Lincoln, although there are 260 works on Lincoln in existence, Mr. Shields declared.

"We are just now beginning to understand the larger outline of his

## THANKFUL HE ESCAPED HANGING

Warren J. Lincoln Sentenced to Life Imprisonment for Murder

Geneva, Ill., Feb. 10.—Thankful to escape hanging, Warren J. Lincoln, 46, lawyer and floriculturist, today prepared for removal to Joliet prison to serve life for killing his wife and her brother, burning their bodies and imbedding the heads in a concrete block.

The jury returned a verdict of guilty of murder last night, but directed life imprisonment. Only two jurors wanted hanging. The jury found that Lincoln was insane when he committed the crime, but is sane now.

Lincoln and his son burst into tears when the verdict was read. "I'm glad it wasn't hanging, Dad," the 21-year old boy cried.

## GAS TAX BILL GOES TO SECOND READING

Measure Providing for Increase of Cent a Gallon is Advanced in Face of Opposition

### CITIES, TOWNS GET FOURTH

Amendment Makes Provisions for Division of Money—Larger Cities are Opposed

(By United Press)

Indianapolis, Ind., Feb. 10.—In the face of strenuous opposition by senators from the larger cities of the state, the Cann bill providing for a one cent increase in the state gasoline tax was advanced to second reading in the senate today by a vote of 24 to 19.

A minority report of the senate roads committee recommending approval of the bill with an amendment to give cities and towns one-fourth of the additional cent was adopted.

The majority committee report recommended approval of the bill without amendments, which would have given the additional cent of revenue to the counties.

Senator Nejd of Whiting led the fight against the bill with a motion to postpone indefinitely, after the two committee reports were submitted.

The vote on the bill split party lines. The Lake county delegation and the Marion county delegation voted against the bill, supported chiefly by senators from districts containing large cities.

After one of the most hectic sessions of the house in years, the Wright-Dehaven chiropractor bill was made a special order of business.

## COUNTY WILL BUY NEW ROAD REPAIR EQUIPMENT

Bid Will be Received March 2 for Three and a Half Ton Truck and Six Road Planers

### ROAD VIEWERS APPOINTED

Rush county is in the market for six road planers and a three and a half ton truck for the road repair department, and bids will be received on the new equipment Monday, March 2, it was decided at an adjourned session of the county commissioners Monday.

At the same time, the board will receive bids on the Fred Shelhorn road in Anderson township, which was voted on favorably at the regular election last fall. Eph Peck of Orange township and Thomas Bishop of Union township were appointed viewers to report at the March meeting of the board.

The specifications for the truck call for a mechanical hoist with two hooks in front and having a three yard capacity, a dump body with one spring drawbar on back and enclosed cab, windshield and lookback.

The commissioners took no action on the petition for the Rhodes road in Center township, which was presented at the regular February session of the board and postponed to yesterday for further consideration.

## SAYS COLLINS WILL NOT COME OUT ALIVE

William B. Miller, Louisville Newspaper Reporter, Has no Faith in Rumors of Hoax

### COURT MARTIAL INQUIRY ON

Rescuers Shovel Way Slowly Down Shaft, Digging Down 38 Feet—May Reach Collins Thursday

Cave City, Ky., Feb. 10.—"Floyd Collins told me he is in the only entrance to Sand Cave. There is no way of reaching him from the rear. I never did think we would get him out."

This was the testimony of William B. Miller, newspaper reporter of Louisville, before the court martial of inquiry today.

The court martial was called on orders from Governor William Fields.

Miller was the first witness summoned. He said he had conversed with Collins while the latter lay in the grip of the boulder that has kept him prisoner for twelve days.

The court open hearing probably will adjourn to Sand Cave seven miles away to examine other witnesses.

While the court called witnesses, rescuers were shoveling their way slowly in the shaft to the prison of Floyd Collins. They have dug about 38 feet of the 60 feet they must go to effect the release.

Thye expect to reach the explorer Thursday.

"I am satisfied there is no fake to Collins' imprisonment," Miller testified. "I heard him answer his brother Homer when the latter called down to him. I know that he was pinned so that he could not get out. I believe that all these rumors that it is a publicity stunt, are unfounded."

Still twenty feet from the cell where Collins lies, rescuers entered their work today with renewed conviction that the victim was alive.

Repeated electrical tests throughout the night indicated that Collins lived.

While the workers bored on, a martial court of inquiry under orders of Governor Wm. J. Fields, was assembling here to probe conditions surrounding Collins' imprisonment.

J. Lewis Williams, county prosecutor, planned to attend the inquiry and if testimony warranted action announced he would call a special grand jury to return indictments.

Such were the activities on the

## THREE WIVES FILE SUIT ALL SEEKING DIVORCES

Trio Also in Their Actions Want Court to Restore Their Former Names—All Live in City

### CRUEL TREATMENT CHARGED

Three divorce suits, all filed by wives, were docketed this morning in the circuit court, and in each case the wives want their maiden names restored.

Marie Sylvia Beeson, by her next friend, Lillian Wilder, has filed suit against, William Beeson, charging that they were married March 6, 1922 and separated May 30, 1924. They resided at 935 West Second street at the time of their alleged separation, and she charges him with failing to provide and cruel treatment. She asks that her former name of Marie Curry, be restored.

Catherine Hall is plaintiff against Wilbur Hall, alleging that they were married December 23, 1922 and separated June 29, 1924. She charges cruel treatment, failure to provide and neglect. She asks that her former name of Catherine Clevenger, be restored.

In the third complaint, Stella Smith is plaintiff and Fred Smith defendant. They were married February 1, 1919 and separated February 2, 1925, when she charges him with backing his things and moving to Indianapolis, where he has since resided. They lived at 1031 North Sexton street, and she asks that her former name of Stella Walker, be restored.

"This survey is being made for the purpose of trying to locate European Fowl pest in this county," says a statement from the county agent's office. "We beg and urge the hearty and full cooperation of every fowl raiser in the county. The veterinarians will call on you to give the following information:

"Number of chickens, turkeys, ducks, geese and guineas on the farm. How many of each have died since January 1? Are there any pigeons on your farm or do they visit your farm? Have you noticed many dead sparrows this winter? When was the produce buyer last on your farm? Did any sickness follow in a few days after his visit? All this information we hope you will have readily at hand to give to your local veterinarian so that we can complete a rapid survey of the county."

Dr. Wickwire went over the visible symptoms of European fowl pest and explained in detail to the veterinarians present last night.

Briefly stating the visible symptoms are, he said:

"1. Sickness of bird. 2. Drooping wings. 3. Feathers hanging loose on lower part of the body. 4. Hard for the chickens to breathe due to the

## Movies

Bebe Daniels at Princess—Bebe Daniels comes to the Princess theatre today as the star in the Paramount picture, "Miss Bluebeard," a screen version of the Broadway stage hit by Avery Hopwood.

Robert Frazer, Raymond Griffith and Kenneth MacKenna have prominent supporting roles in the production which has to do with a charming French actress, bound for England on a holiday—and by the time she reaches dear old Lannon has two husbands to account for.

Here's Bebe in the kind of role that made the old Harold Lloyd comedies famous—Bebe in a story that couldn't have suited her better if it was written especially for her.

Frank Tuttle directed the picture. Townsend Martin wrote the scenario. Others in the cast are Martha Madison, Daina Kane, Lawrence D'Orsay, Florence Billings and Ivan Simpson.

## "Broken Laws." Castle

"Broken Laws," the splendid photoplay presented by Mrs. Wallace Reid, now running at the Castle theatre, boasts a cast that contains not only the best talent in Movieland, but many who are noted in humanitarian work as well.

One of the latter is Judge Henry Neil, internationally known as the "father" of the Mother's Pension Movement. Judge Neil was so impressed by the story of "Broken Laws," that he volunteered to play the role of criminal judge in the production.

"Broken Laws" deals with the necessity for law observance and respect for the laws, particularly as it affects children. It combines the theme of Mother Love and Respect of Law in a virile, dramatic story of two families of a middle west town. What lack of law observance meant to the children of those two families is told in a masterful manner.

excess of mucus in the nose and throat which is characteristic of this disease. They breathe largely through mouth rather than nose. They extend head, shake it and throw out this mucus to clear the air passages. 5. Tendency for the bird to sit down a large part of the time. 6. Head and neck seems to be drawn deep into the feathers and body. "From this position they extend the head almost horizontal, shake the head to clear the air passage of accumulated mucus, take a few breaths through a practically open mouth, then settle back to original position. Head and neck tucked down. In a short time it is again extends its head and neck in a different position, almost upright, shakes its head as before, opens mouth as wide as possible, breathes a few times, settles back to the original position. If we now arouse the bird to a standing position its head will be carried low and in some cases the bill will touch the floor, mark drooping of tail and wings and extreme looseness of feathers on lower part of the body due to diminishing vitality. You will also notice an excessive weeping of clear tears.

"When a normal chicken sits its feet are parallel, but now they begin to spread their toes out for support. If the bird gets up he will have what might be called a rocking motion. His gait is similar to that of a person afflicted with locomotor ataxia. Oft times legs give way and chicken depends upon support of wing."

## SAYS COLLINS WILL NOT COME OUT ALIVE

Continued from Page One

twelfth day of Collins' imprisonment. Dr. W. H. Hazlett, Chicago specialist, said he is positive Collins still lives. Tests made through amplifiers attached to the light wire which illuminates the prisoner's recorded sounds which Hazlett is confident were respiration sounds.

Hazlett judged from the frequency of the breathing, that though suffering from his confinement, Collins was not a victim of pneumonia. Patients with this disease breathe about forty times a minute, he said. Collins' breathing was recorded from 20 to 22 times.

H. T. Carmichael, in charge of shaft operations, announced at a secret meeting held among leaders in the rescue last night that the shaft had sunk 38 feet. His estimate of reaching Collins by Thursday was unchanged. Repeated interruptions to explore new crevices delayed the work he said.

The secret conference was called to make a complete survey of the work accomplished and what still was to be done. Results of the meeting were not announced.

The court of inquiry was to assemble at Cave City at 10 a. m. It is

empowered to hold its sessions at any place it elects and is expected to adjourn to Sand Cave for its session.

The court has all the authority of a court martial except that of punishing offenders.

No particular line of inquiry will be followed by the court. It merely will take testimony from such witnesses as have accusations to make and then offer its recommendations for action.

It comprises Brig. General H. H. Denhardt, Lieut. Col. H. J. Stites of Louisville; Maj. W. H. Jerry, Bowling Green; Captain John A. Tallan, Springfield, Ky.; Capt. Julius A. Clomiller and Captain Alex M. D. Haney also of Bowling Green.

Col. Stites is the man who ordered arrest of "Hard Boiled" Smith in France. Smith, then a captain, was in charge of prison camps.

Governor Fields has asked recall of one press representative from Cave City who published reports that people of the vicinity doubted anyone ever had been in the cave. He branded the report as "assinine".

Another newspaper man on the scene Thomas Kilian of Chicago, had a death threat note tossed through the transom of his hotel room last night. It read:

"If you don't stop writing that stuff about my stopping the workers from reaching Floyd and get out of town, you're going to wake up and find yourself dead."

## AILMENTS OF YOUNG GIRLS

Relieved by Lydia E. Pinkham's Vegetable Compound School Teacher's Experience

Evanston, Wyoming.—"A few years ago I had troubles every month such as girls often have, and would suffer awfully every time. I was teaching school and it made it hard for me as I had to go to bed for two or three days. One day my mother suggested that I take Lydia E. Pinkham's Vegetable Compound, which I did, and it did wonders for me.

In the course of a year I married and after my first baby was born I got up too soon and it caused a displacement. This troubled me so that I could hardly walk or do my housework. I knew what the Vegetable Compound did for me before so I took it again. It strengthened me and now I have five little kiddies. The eldest is six, the baby is five months old and I have twin boys three years old and a boy of five years. I do all my own housework, washing and ironing, and I never felt better in my life. I owe my health to your wonderful medicine and I recommend it to all my friends."

Mrs. VERRIE CARPENTER, 127 2nd Avenue, Evanston, Wyoming.

A Song of Thanksgiving:—  
Of that men would praise the  
Lord for his goodness, and for  
his wonderful works to the  
children of men! O come, let us  
sing unto the Lord; let us come  
before his presence with  
thanksgiving. For he is our  
God, and we are the people of  
his pasture. Psalm 107: 8; 95:  
1, 2, 7.

Prayer—We would bless the  
Lord at all times. May this  
praise be continually in our  
mouths.

**The Right Spirit**

Cultivating a fraternal spirit has  
much to do with the success of any  
community and Rushville is no ex-  
ception.

Where the population is limited,  
the selfishness or indifference of a  
single individual exerts a depressing  
effect upon others and in time per-  
meates the whole community.

Men and women who heartily want  
to advance the interests of them-  
selves and their neighbors find it  
difficult to work to advantage when  
disaffected ones are continually  
throwing a wet blanket over every  
new project that is proposed.

Investigation and discussion are  
both commendable and much to be  
desired when something for commu-  
nity betterment is proposed, but pull-  
ing back in the darkness has the same  
effect as a bulking horse.

The load can't be pulled without  
the combined effort of every one  
hitched to the program of advance-  
ment, and pulling in the opposite di-  
rection, or even refusing to pull,  
renders ineffective the efforts of  
those who are trying to do something

worthwhile for the benefit of every-  
one.

And all too often the citizens who  
are the first to criticize what has  
been done are the ones who con-  
tribute nothing in thought, time or  
money to the enterprise designed to  
better the welfare of everyone.

The spirit that wins is the spirit  
that knows no dissension but causes  
men to work together in harmony—  
all pulling together in the same di-  
rection.

**Teaching Responsibility**

School savings bank balances in-  
creased from \$11,807,000 to \$20,-  
435,000 during the year ending June  
30, says an American Bankers' As-  
sociation report. The number of  
savings bank pupils increased 328,-  
475 or almost 17 percent. In one  
group of 400 districts the total num-  
ber of pupils increased 4 percent,  
pupil bank participation 8 percent,  
collections 23 percent and bank bal-  
ances 44 percent. With the growing  
sense of responsibility, school honor  
rolls have grown from less than 30  
percent to more than 33 percent.

Many an irresponsible man has  
been cured by giving him something  
to do. Many a "bad" boy, many a  
rebellious girl, can be started on the  
safe road by the responsibility of a  
bank account. No child was ever  
helped by being robbed of the privi-  
lege of property; the two dangerous  
extremes of society are the sub-  
merged few who have been so robbed  
and the exotic few who have so  
much that things have no intrinsic  
meaning or value. This school bank  
account idea beats all the languages,  
dead or alive, for developing charac-  
ter and social stamina. Let's have  
more of it; not for the riches them-  
selves—we're rich enough, as a  
nation—but for what it will do in  
teaching responsibility.

**Only One Danger**

That we are entering a new era of  
prosperity seems to be the concen-  
sus of opinion all over our country.

Confidence in the sanity and solidi-  
ty of our national administrations,  
is the foundation for this belief.

The great improvement in the statu-  
s of agriculture is having a marked  
influence on all industry.

Over-optimism, however, which  
often breeds speculation and infla-  
tion, should be carefully guarded  
against.

**SAFETY SAM**

Trains and trolley cars 'll bust up a  
fine new limousine just as quick as a  
1913 Lizzie, thus showin' that they  
ain't th' least bit particular!

## Di-Jo Comes As A Great Relief To Sufferers From Chronic Indigestion

Don't suffer from indigestion. It's  
needless and dangerous. There isn't  
anything that makes one feel out  
of sorts so much as a stomach that  
isn't working properly. If you get  
up in the morning with that terrible  
taste in your mouth, irritable, out of  
sorts, you can wager a great deal  
that the cause lies with your stom-  
ach.

If you get up in the morning feel-  
ing that way, remember one thing—  
after you have eaten the heavy meal  
of the day you can prevent a repe-  
tition of that dragged out feeling in  
the morning by taking Di-Jo. This  
aid to digestion will relieve the sto-

mach of much of the work it is  
forced to do. It will permit it to rest  
and give it a chance to recover from  
too heavy work.

Take Di-Jo after each meal and  
you'll find your stomach will be able  
to digest your food properly and  
you'll feel much better yourself.

Go to your druggist today and get  
Di-Jo. It will mean your stomach  
troubles are practically over.

If you are troubled with constipa-  
tion take Di-VAC. It is sold by all  
druggists and is recommended as the  
proper laxative to be used in con-  
nection with Di-Jo if any is needed.

**INSURE YOUR CHANCES**

Your chances for success are always better when  
you are insured.

The chances of misfortune are always lessened  
when you are insured.

Chance may help you or hinder you at a  
moment's notice.

Insure your chances. Then you will be aided

## Hunt's Washington Letter

BY HARRY B. HUNT  
NEA Service Writer

WASHINGTON—Radio cannot  
yet compete with newspa-  
pers in the broadcasting of  
national news, in the belief of  
President Coolidge.

White House opinion and White  
House comment, therefore, will  
continue to be broadcast through  
the medium of Washington cor-  
respondents rather than through  
crystal sets and super-hetero-  
dynamics.

Radio interests, anxious to ex-  
tend the field of broadcasting to  
cover the most important news  
sources in business and govern-  
ment, have been most anxious to  
line President Coolidge up as a  
regular speaker on the air.

They have extolled him as the  
ideal radio voice. They have  
stressed the idea that via radio  
he could maintain virtually a per-  
sonal contact with the whole  
country.

The popular expression of ap-  
proval which followed the Presi-  
dent's speech on economy a week  
ago, in his address to the bureau  
of the budget, which was broad-  
cast through a dozen stations,  
made the present seem an opportu-  
nity for pushing the idea of  
developing what some have de-  
scribed as a "wireless president."

Regular radio addresses—once a  
month, twice a month—were sug-  
gested. But, whether from con-

servativeness or canniness no one  
knows, Coolidge shook his head.  
"I find I am able to broadcast  
my views very effectively through  
the newspaper men," he said. "I  
do not believe there is any neces-  
sity for any fixed program of ra-  
dio talks by the president."

SECRETARY JIM DAVIS' deci-  
sion to retire from the cabinet  
and then his re-decision to re-  
main at the head of the Depart-  
ment of Labor is causing his col-  
leagues to "kid" him a bit.

Jim, they say, reminds them of  
the fellow who rushed up to the  
ticket window just as the train  
was pulling in and shouted:

"Gimme a round trip ticket."  
"Where to?" "Where to?" de-  
manded the ticket seller.

"Why, back here of course," y'  
blamed fool."

The ticket Jim really wanted,  
they insist, was one that would  
bring him right back where he  
started from. And that's what he  
got.

ALEX P. MOORE of Pittsburgh  
and Madrid, American ambas-  
sador to Spain, is the first of  
our major "diplomats" to arrive  
in Washington to attend the  
Coolidge inauguration, March 4.

"The most severe punishment  
dealt out by Spanish justice,"  
Moore says, "is to be sentenced to  
jail over Sunday. That means the  
prisoner will miss the week's bull  
fight."

**Safe Fat Reduction**

Why be fat? The answer of most  
fat people is that constant dieting  
is hard, continual exercise is tire-  
some and exhaustive—and then, too,  
it might be harmful to force the  
weight down. That was the old-  
fashioned idea. Today in Marmola  
Prescription Tablets all these diffi-  
culties are overcome. Just a pleas-  
ant little tablet after each meal and  
at bedtime causes fat to vanish.  
This modern method is easy, entails  
no dieting or exercising and has the  
added advantage of cheapness.

Get a box of these tablets and start  
taking them now. Within a short  
time you will be getting rid of fat  
steadily and easily without starva-  
tion diet or tiresome exercise. You  
will be comfortable and able to en-  
joy the food you like and want. Even  
after taking off many pounds,  
there will be no flabbiness or wrin-  
kles remaining. You will feel 100  
percent better. All drug stores the  
world over sell Marmola Prescrip-  
tion Tablets at one dollar for a box  
or the Marmola Company, General  
Motors Building, Detroit, Mich.,  
will gladly send them to you on re-

## The Spirit of Service and Good-will

President Dubois of the Western Electric Com-  
pany recently addressed 40,000 employees of his  
Company by radio as follows:

"Today we work in larger groups  
than our forefathers, because no  
one person and no small group can  
design and make and assemble and  
test and finally sell our finished  
product—the product which makes  
neighbors of a hundred million of  
our fellow citizens.

"In the great scheme of modern life,  
you and I are doing our full part.  
We are not parasites nor slackers.  
We are useful people. That alone  
makes our lives worth while.

"And because the work of each of  
us depends upon the skill and faith-  
fulness of others, none of us can be  
sufficient to himself."

The words of President Dubois might have been  
chosen specifically to apply to the Standard Oil  
Company (Indiana).

This Company is organized into a big group,  
because so small group can handle the business  
of oil products on the vast scale which is re-  
quired by our complex civilization.

Only a large oil company can produce and dis-  
tribute gasoline and lubricating oils which pen-  
etrate to the most remote parts of the Middle  
West in such a way as to make possible the cir-  
culation of the millions of automobiles.

The Standard Oil Company (Indiana) is an es-  
sential part of the great scheme of modern life.  
Its experienced and trained personnel is of in-  
calculable value to the community. The spirit of  
service and good-will which inspires every em-  
ployee from the executive to the man at the  
furthest flung service station, is an important  
asset to society.

And because the service of the Standard Oil  
Company (Indiana) is performed with enthusiasm,  
energy and efficiency, the wheels of hundreds  
of other industries are kept running productively  
to serve the nation as a whole. For this Com-  
pany is an essential cog in the machinery of  
civilization.

## MOSCOW HAS VERY LITTLE OPPOSITION

Independent Basketball Team Swings Through Moral Tournament up to Final Game

### WINS FROM NEW PALESTINE

Victors Play to Finals With Only Five Men, Osterling Joining Squad For Last Game

The Moscow Independents won the Moral Independent tourney Saturday over New Palestine, when they defeated Morristown, 35 to 8; New Palestine 23 to 21 and Waldron 31 to 16.

The victors played to the finals with only five men, but Osterling came for the final game. The three Gossnell and Reed shot goals from all angles, while Root and Osterling played a great game at guard. With the exception of the New Palestine game, there was little opposition for Moscow.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

## To Pay Amateurs

By HENRY L. FARRELL  
New York, Feb. 10—Another row over the subject of pure amateurism will result from the recommendation of Baron De Coubertin, President of the International Olympic Association, that amateur athletes be given compensation for the time lost from their regular occupation while they are competing in meets.

The idea is not new. Sweden expressed approval of the suggestion more than a year ago and although there was a violent protest from other European nations, it was ramored in Paris last summer that the Swedish athletes were getting as much as they would have earned at their regular occupations while they were absent in Paris.

Baron De Coubertin was careful to make it clear that he was choosing a personal opinion and that he was not proposing an official attitude on the question.

Some of the smaller nations might be able to interest more youngsters in track and field athletics if competition could be made financially attractive, but there follows the important question—Who would pay them? Most of the European nations now have trouble getting the money to pay the transportation and the more living expenses of an Olympic team, and even the United States was hard put to it to get funds last summer to send a team to Paris.

Perhaps the generosity of Los Angeles officials is bringing about a change in feeling on the other side. It will be recalled that Los Angeles, in asking for the 1928 games, agreed to transport all the foreign teams to and from Los Angeles, with the freight all paid. It might be that some of the foreign nations, who are willing to concede a few points about amateurism, figure that Los Angeles would be willing to pay the athletes the amount of their civilian salary.

When the international officials were discussing Los Angeles as a site for the 1928 or 1932 games, it was pointed out that Europe would be able to participate only on a very small scale because of the money that would be required to send a team clear across the globe to the Pacific Coast and because of the time that the athletes would lose from their occupations.

European athletes would have to spend about a month making the trip to and from their own port and at least three weeks or a month would be necessary to train for and compete in the games. It is a readily admitted fact that there are few athletes in Europe fixed so well financially that they could forego the pay-check for two months even if it didn't cost them anything to live during that time.

## Pine-Tar and Honey Still Best for Chest Colds and Coughs

Our mothers and grandmothers would never be without pine tar syrup in the house for coughs, chest colds, etc. This was many years ago, but modern medicine has never been able to improve on this time-tested remedy. Doctors say the pine tar is hard to beat for quickly loosening and removing the phlegm and congestion that are the actual cause of the cough. At the same time pine tar and honey soothe and heal all irritation and soreness.

The kind that has been used with never-failing success in thousands of families for years is that known as Dr. Bell's Pine-Tar Honey. This is scientifically compounded of the right proportions of pine tar, honey and other quick-acting, healing ingredients which the best doctors have found to aid in quick relief. It contains absolutely no opiates, narcotics or harmful drugs, so can be given to young children—fine for spasmodic croup. It tastes good, too. If you want the best, a medicine that often stops the severest cough overnight, be sure you get Dr. Bell's Pine-Tar Honey. It costs only 50c at any good drugstore.

## DOPE ON TICKETS

Oh, yes, B. E. Myers tells us that the ticket rule will be enforced to the letter next Friday night. There'll be a jam and then some and they're taking no chances. Here's the dope. You must have your ticket and you must not use the north door. Can't get in there and we have B. E.'s word for it, if you go there they'll send you to another door. Fact is the Rushville crowd will be taken care of at the north door. That's that. —Side Lights, C'ville.

Remember also, that no plans are being made for special cars. Four hundred of the tickets were sent here for the game, and they are on sale at the high school office at fifty cents per.

Down at Washington the other night, the telephone office handled more calls than on election night, which shows that there is more interest in basketball than politics.

Connersville tackles Franklin Saturday night down at Franklin, but over at Connersville they are pointing more to the Friday night game. It should be a big week end for the Ikniks—mostly on the weak end.

THESE LIONS HAVE ONE BIG THING IN MIND. DON'T POOL YOURSELF INTO BELIEVING THAT THEY HAVEN'T. THEY ARE GOIN' TO NIK THE IKNIKS.

Newcastle steps down to Shelbyville Friday night, and the way that the Trojans are playing, they will annex another victory.

Just can't get over that sectional drawing, in which Newcastle was given a clean ticket through the Anderson regionals. Muncie didn't fair so well, as they are to meet Anderson before advancing another notch.

## Game Lost or Won By Foul Goals

The game could have been won and lost a good many times had players on both teams hit the foul goals more consistently. Washington missed 12 chances at the goal, while Vincennes missed 7.

—Vincennes Sun

Those foul goals are one thing that has won games for Connersville and it is a part of their system to make their opponents foul. You Lions must watch that system and keep from fouling.

Bring on Hackensack. Who's afraid?

After looking over the entire field Martinsville is our choice to cop the state, and we'll stick with it.—Shelbyville Republican.

NEXT FRIDAY IS THE THIRTEENTH. A LUCKY TIME TO NIK THOSE IKNIKS.

There isn't much talk around here about that game Friday night over at C'ville, because it seems to be a conceded fact that Rushville will win. The Ikniks made a miserable showing over here, and many fans are saving their money for the sectional tourney.

YOU can go bargain hunting for gas and get whatever you're looking for.

If you are fascinated with the saving of a penny or so per gallon at the moment of filling, there is a perfect forest of parti-colored pumps bristling on the highways where they'll gladly give you your wish.

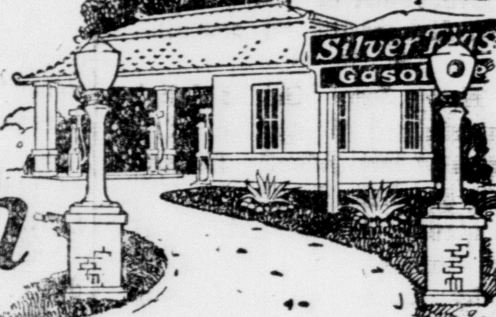

But if you measure gas values in the larger terms of motor dollars—if you look beyond chickenfeed change to the yawning door of the overhaul shop—if you care for the comfort of quick, certain starting, smooth running and guaranteed protection from the engine-aging ravages of kerosene and free carbon—then you will turn in to the pumps of

## GRAND JURY PROBE BEGINS WEDNESDAY

Judge Sparks Orders Investigation of Alleged Law Violations in This County

### NEW PANEL IS DRAWN

Shooting of Mrs. Bert Wilson by Her Husband, to be Among Matters First, it is Expected

The Rush County grand jury was ordered for service Wednesday by Judge Will M. Sparks, and several new members were drawn for service, and were notified to report in the morning.

The six men who will sit as grand jurors are Frank Megee, Homer Powell, Rushville; John Stofen, Center; Albert M. Hite, Richland; D. O. Altier, Orange; Glennie P. Miller, Walker.

Foremost among the investigations, it was intimated that the probe into the shooting early Sunday morning by Bert Wilson, would be taken up. Wilson shot his wife, Maggie Wilson, early Sunday morning, and injured her, although her condition today was reported to be encouraging.

Mrs. Wilson was able to come down to a physician's office this morning, where an x-ray was taken in order to locate the .32-caliber bullet which imbedded itself in her chest.

The x-ray disclosed the fact that the bullet was not in any dangerous location, and no effort would be made to remove it, unless some unforeseen complications should arise.

Mrs. Wilson did not have any signs of fever, according to Dr. J. M. Lee, the physician, and it is expected that no ill effects will result. A serum treatment to prevent poisoning or complications from the bullet, is being administered.

In the meantime her husband is held in jail and the grand jury will probably take up the case when it convenes in the morning.

The grand jury also is expected to probe other alleged violations of the law.

Alleged open violation of the liquor laws which figured in the murder trial of Cassius Flowers at Muncie, may be among the things to be investigated here.

The grand jury has not been used in Rush county since about this time last year.

School Children Have Elected Their Delegates Who Will Assemble Here to Register Votes

### TO PICK A REPRESENTATIVE

The schools of Rush county will hold their "county convention" here Saturday morning, when the delegates will meet and elect a representative from the list of nominations and who will go from here to sit in the Junior state legislature to be held next month in Indianapolis.

The schools of the county have held elections among themselves in order to elect a delegate to the county convention. Each school also is busy polling for the election of a county representative, and several candidates are after the place.

The list of delegates selected from the high schools are as follows: Katherine Halterman, Webb; Lawrence Harrison, Milroy; Franklin Mullin, Rushville; Merrill Walker, Raleigh; Adrian Eckert, Gings; Jesse Woods, Arlington; William Benner, Center and Robert Frow, Homer. The delegates from Glenwood and Carthage have not been certified.

Some of the aspirants for election at the convention are Naomi Nash of the Gings school, Franklin Miller and Lawrence Davison of Rushville school, and it is said that Carthage, Milroy and Raleigh each have a candidate. The session here will begin Saturday morning at ten o'clock in the assembly room of the court house.

## HELD FOR GIVING A BAD CHECK

Paul Floyd, Held at Anderson, to be Returned Here Today

Police Chief Blackburn received a telephone call this morning from officers in Anderson, stating that they were holding Paul Floyd, who is wanted in this city. According to the police chief, Floyd is charged with passing a bad check for \$10.75 given in payment to George Meyers, 325 East Eighth street, a grocer. The check was given last Saturday, according to the police, and returned because of non-sufficient funds. Floyd lives in Anderson, and the police there were notified to arrest him. He was to be returned here late today to face trial in police court.

## FOWL INSPECTION IS STARTED TODAY

Eleven Rush County Veterinarians Pledge Support to Movement to Prevent Spread of Disease

### ASSIGNMENTS ARE ARRANGED

Object is to Prevent Destruction of Business With Income of \$1,750,000 Annually in County

All of the veterinarians of Rush county, eleven in number, pledged their support to the campaign to prevent the spread of the European fowl pest in the county, at a meeting at the court house Monday night, and this morning began the inspection which will cover every farm.

The meeting of veterinarians was called by Dr. N. G. Wickwire, a federal inspector, who was assigned to Rush county in an effort by the state of Indiana to stamp out the foreign fowl disease which, it is feared, may do irreparable damage to the poultry of nine eastern Indiana counties.

"Rush county produces one and three-quarters million dollars worth of poultry each year," said H. D. VanMatre, county agent, today. "The object of Dr. Wickwire's work in the county is to co-operate with the local veterinarians and not permit this income to be destroyed by the foreign pest."

At the meeting last night at the request of Dr. Wickwire, each veterinarian in the county assured him they would give him their individual effort in making the survey in Rush county complete. The eleven men were assigned as follows:

Rushville: Dr. Gause; Center township, Dr. Hancock; Washington township, Dr. Hall; Posey township, Dr. Gordon; Jackson

## COUNTY PHYSICIANS HOLD FINE SESSION

Eighteen Members of County Society Hear Addresses by Two Specialists of Indianapolis

### TALKS ARE ILLUSTRATED

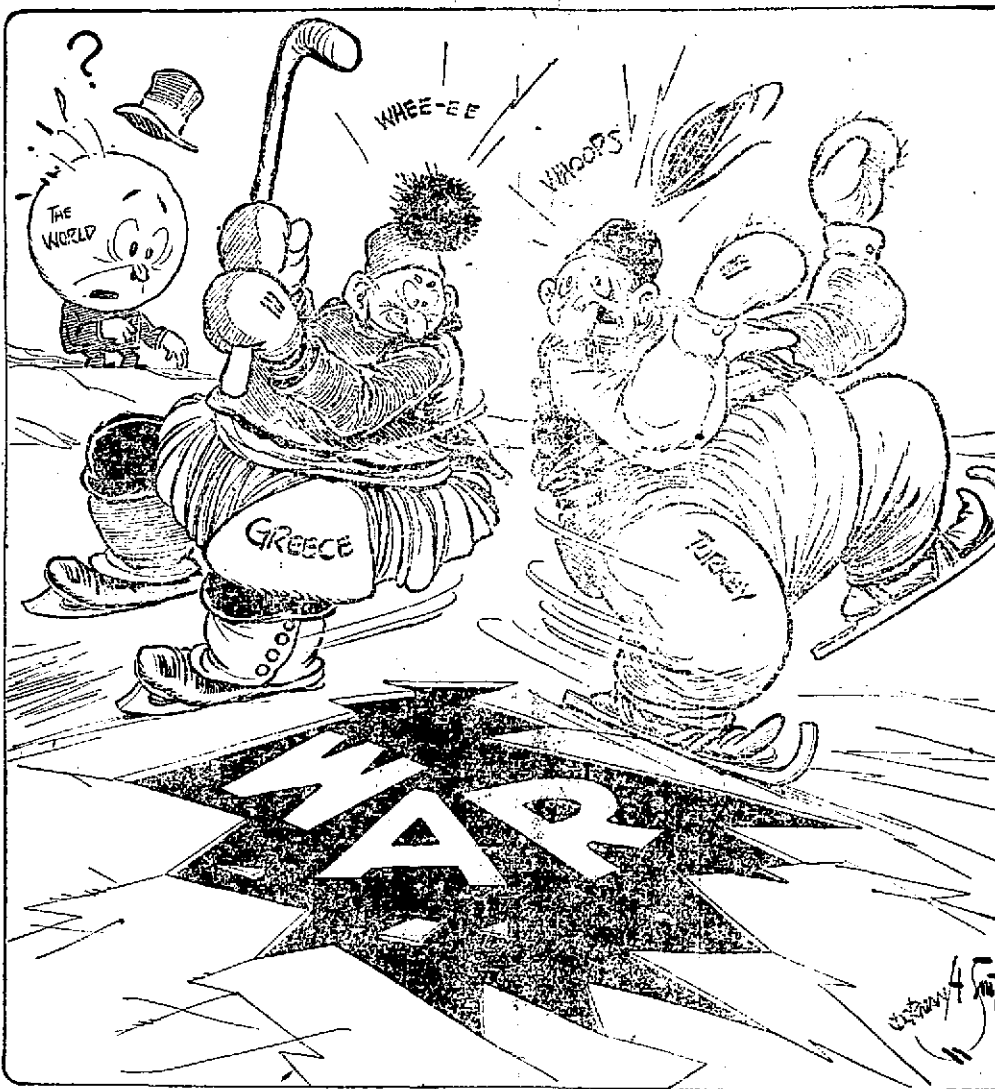

Eighteen physicians of Rush county, members of the Rush County Medical society, gathered Monday night at the hotel Scanlon for their regular monthly meeting and banquet, and an excellent program was rendered.

The meetings are becoming better attended each month, and interest is strong in the sessions. The banquet was a steak dinner, served at the hotel, and following this was a program.

The speakers were Dr. J. H. Warvel and Dr. Robert Moore, both specialists of Indianapolis. Dr. Moore is a heart disease specialist, and his lecture was illustrated with lantern slides, and was of considerable interest to the local physicians.

Dr. Warvel, who is in charge of the laboratory department at the Methodist hospital in Indianapolis, gave a splendid talk on laboratory work and the value of such work for practitioners. He illustrated his address with a chart, and both talks were highly received by the county physician.

## INSTRUCTS JURY TO FIND FOR W. B. BRANN

Judge John C. Craig's Action has Effect of Bringing Liquor Case to Abrupt Ending

### RULES OF DEFENSE MOTION

Says Blame Can Not be Placed on Court or Prosecutor as Witnesses Changed Evidence

The criminal case in the circuit court Monday, before Judge John Craig of Greensburg, which was trying Will B. Brann, former captain of Company C, came to an abrupt end about three o'clock in the afternoon, after the state had finished with their portion of the evidence.

The defense filed a motion to dismiss the defendant on the joint grand jury indictment, charging him with selling liquor. Judge Craig sustained the motion, and instructed the jury to return a verdict of not guilty, which they did without leaving their seats in the jury box.

In sustaining the motion, Judge Craig stated that the cause of the dismissal could not be blamed upon the court, or upon the prosecutor, asserting that the courts could not be held responsible for evidence given before a grand jury, and which was changed by witnesses at a trial.

The evidence given before the grand jury a year ago was not taken down by the court reporter, and it was pointed out that if it had been transacted in that manner, witnesses would be liable for arrest on charges of perjury.

The witnesses faltered in their testimony, according to Prosecutor Ketchum, in being explicit in giving facts to which they had sworn before the grand jury, and which some of them had forgotten in detail.

Such was the case of Raymond Finney, he said, who had testified before the grand jury that he had paid Brann \$2 for a quart of liquor. At the trial, he couldn't remember the exact amount paid for it, nor could he recall that he had ever paid him, asserting that his best recollections of the matter were that the officer was to keep the money from his pay.

Another witness, according to the prosecutor, changed the time of a transaction in liquor, making his date in the testimony at the trial, a difference of one year from what was charged in the grand jury indictment.

## TO INVESTIGATE MONOPOLY CONTROL

Federal Trade Commission to Make Inquiry Into Control of Bread, Tobacco and Electricity

### SENATE ACTS ON RESOLUTIONS

Charged that Bakeries are Being Swallowed up by One Gigantic Baking Corporation

By PAUL R. MALLON  
(U. P. Staff Correspondent)

Washington, Feb. 10.—Bread, tobacco and electricity were the subjects of investigation by the federal trade commission today under authority of the senate.

To learn whether it is true, as charged, that monopolies control the production and distribution of these three commodities, the senate voted to look into conditions in the industries.

The tobacco and electricity investigations were sanctioned by adoption of the Ernest and Norris resolutions. The bread probe previously was initiated by a resolution backed by Senator LaFollette.

The commission's task is to investigate specific charges as follows:

**BREAD**  
That bakeries of the country are rapidly being swallowed by one gigantic baking corporation, whose alleged control of prices costs the nation \$500,000,000 a year in unwarranted high bread prices.

**TOBACCO**  
That the American Tobacco Company and the Imperial Tobacco Company of London by mutual agreement boycotted southern tobacco farmers co-operatives, buying their tobacco supplies elsewhere at higher prices and that they agreed to let each other have absolute monopolies in their respective countries.

**ELECTRICITY**  
That the General Electric Company is a gigantic power "trust" dominating every electric light bulb in the country, through subsidiaries.

The commission will report its findings to the department of justice. If the department finds evidence of law violations, appropriate action will be started.

**OPENS OFFICE**  
Donald D. Ball, life insurance writer, has opened an office over Pitman and Wilson's drug store, adjoining Donald L. Smith's law office.

## HAD THE POWER TO DESTROY A NATION

Lincoln's Greatest Single Act Was When He Decided Issue of State Sovereignty, John Shields Declares

### SPEAKS TO KIRO CLUB HERE

Pictures Great Human Qualities as His Elements of Greatness—Virtues he is Known by

Lincoln's greatest single act was when he decided that a nation has a right to coerce a sovereign state, John Shields of Seymour, an authority on the life of Lincoln, declared in an address before a joint meeting of the Kiwanis and Rotary clubs today noon, at the Social club.

Mr. Shields spoke to the high school at 2:15 this afternoon, immediately following the Kiro meeting.

"When Fort Sumter was fired on, Lincoln had the power to destroy a nation in an hour," Mr. Shields stated. "The question was whether a nation could coerce a sovereign state and his answer rang the death knell of state sovereignty and marked the birth of a nation."

The Lincoln student held the audience of almost 100 men spellbound during the luncheon address, in which he pictured the great human qualities of Lincoln as his elements of greatness.

"He was a leader of men," said Mr. Shields, "but the grandeur of power never appealed so much as his human qualities. He was honest and affectionate and had faith in right and it is these virtues that he is best known of men."

"He known best as 'Honest Abe' because honesty was his predominant trait, and in 'Honest Abe' lies the lesson for us, because each of us in quality of honesty may be Lincoln's peer."

"In the larger sense, Lincoln does not belong to any country or any month," Mr. Shields asserted, commenting upon the fact that February was the month of both Lincoln's and Washington's birthdays.

In small things, the speaker pointed out, Washington and Lincoln were different—one a still engraving, the other flesh and blood; one austere, the other colloquial. Both in great things they were alike, he continued, in that both had vision and foresight.

No first class biography has ever been written about Lincoln, although there are 260 works on Lincoln in existence, Mr. Shields declared.

"We are just now beginning to understand the larger outline of his

## THANKFUL HE ESCAPED HANGING

Warren J. Lincoln Sentenced to Life Imprisonment for Murder

Geneva, Ill., Feb. 10.—Thankful to escape hanging, Warren J. Lincoln, 46, lawyer and horticulturist, today prepared for removal to Joliet prison to serve life for killing his wife and her brother, burning their bodies and imbedding the heads in a concrete block.

The jury returned a verdict of guilty of murder last night, but directed life imprisonment. Only two jurors wanted hanging. The jury found that Lincoln was insane when he committed the crime, but is sane now.

Lincoln and his son burst into tears when the verdict was read.

"I'm glad it wasn't hanging, Dad," the 21-year old boy cried.

## GAS TAX BILL GOES TO SECOND READING

Measure Providing for Increase of Cent a Gallon is Advanced in Face of Opposition

### CITIES, TOWNS GET FOURTH

Amendment Makes Provisions for Division of Money—Larger Cities are Opposed

(By United Press)

Indianapolis, Ind., Feb. 10.—In the face of strenuous opposition by senators from the larger cities of the state, the Cunn bill providing for a one cent increase in the state gasoline tax was advanced to second reading in the senate today by a vote of 24 to 19.

A minority report of the senate roads committee recommending approval of the bill with an amendment to give cities and towns one-fourth of the additional cent was adopted.

The majority committee report recommended approval of the bill without amendments, which would have given the additional cent of revenue to the counties.

Senator Nejl of Whiting led the fight against the bill with a motion to postpone indefinitely, after the two committee reports were submitted.

The vote on the bill split party lines. The Lake county delegation and the Marion county delegation voted against the bill, supported chiefly by senators from districts containing large cities.

After one of the most hectic sessions of the house in years, the Wright-Dehaven chiropractor bill was made a special order of business.

## COUNTY WILL BUY NEW ROAD REPAIR EQUIPMENT

Bid Will be Received March 2 for Three and a Half Ton Truck and Six Road Planers

### ROAD VIEWERS APPOINTED

Rush county is in the market for six road planers and a three and a half ton truck for the road repair department, and bids will be received on the new equipment Monday, March 2, it was decided at an adjourned session of the county commissioners Monday.

At the same time, the board will receive bids on the Fred Shethorn road in Anderson township, which was voted on favorably at the regular election last fall. Eph Peck of Orange township and Thomas Bishop of Union township were appointed viewers to report at the March meeting of the board.

The specifications for the truck call for a mechanical hoist with two hooks in front and having a three yard capacity, a dump body with one spring drawbar on back, and enclosed cab, windshield and lookback. The commissioners took no action on the petition for the Rhodes road in Center township, which was presented at the regular February session of the board and postponed to yesterday for further consideration.

### COURT MARTIAL INQUIRY ON

Rescuers Shovel Way Slowly Down Shaft, Digging Down 38 Feet—May Reach Collins Thursday

Cave City, Ky., Feb. 10.—"Floyd Collins told me he is in the only entrance to Sand Cave. There is no way of reaching him from the rear. I never did think we would get him out."

This was the testimony of William B. Miller, newspaper reporter of Louisville, before the court martial of inquiry today.

The court martial was called on orders from Governor William Fields.

Miller was the first witness summoned. He said he had conversed with Collins while the latter lay in the grip of the boulder that has kept him prisoner for twelve days.

The court open hearing probably will adjourn to Sand Cave seven miles away to examine other witnesses.

While the court called witnesses, rescuers were shoveling their way slowly in the shaft to the prison of Floyd Collins. They have dug about 38 feet of the 60 feet they must gouge to effect the release.

They expect to reach the explorer Thursday.

"I am satisfied there is no fake to Collins' imprisonment," Miller testified. "I heard him answer his brother Homer when the latter called down to him. I know that he was pinned so that he could not get out. I believe that all these rumors that it is a publicity stunt, are unfounded."

Still twenty feet from the cell where Collins lies, rescuers entered their work today with renewed conviction that the victim was alive.

Repeated electrical tests throughout the night indicated that Collins lived.

While the workers bored on, a martial court of inquiry under orders of Governor Wm. J. Fields, was assembling here to probe conditions surrounding Collins' imprisonment.

J. Lewis Williams, county prosecutor, planned to attend the inquiry and if testimony warranted action announced he would call a special grand jury to return indictments.

Such were the activities on the

Trio Also in Their Actions Want Court to Restore Their Former Names—All Live in City

### CRUEL TREATMENT CHARGED

Three divorce suits, all filed by wives, were docketed this morning in the circuit court, and in each case the wives want their maiden names restored.

Marie Sylvia Beeson, by her next friend, Lillian Wilder, has filed suit against, William Beeson, charging that they were married March 6, 1922 and separated May 30, 1924. They resided at 935 West Second street at the time of their alleged separation, and she charges him with failing to provide and cruel treatment. She asks that her former name of Marie Curry, be restored.

Catherine Hall is plaintiff against Wilbur Hall, alleging that they were married December 23, 1922 and separated June 29, 1924. She charges cruel treatment, failure to provide and neglect. She asks that her former name of Catherine Clevenger, be restored.

In the third complaint, Stella Smith is plaintiff and Fred Smith defendant. They were married February 1, 1919 and separated February 2, 1925, when she charges him with packing his things and moving to Indianapolis, where he has since resided. They lived at 1031 North Sexton street, and she asks that her former name of Stella Walker, be restored.

"This survey is being made for the purpose of trying to locate European fowl pest in this county," says a statement from the county agent's office. "We beg and urge the hearty and full cooperation of every fowl raiser in the county. The veterinarians will call on you to give the following information:

"Number of chickens, turkeys, ducks, geese and guineas on the farm. How many of each have died since January 1? Are there any pigeons on your farm or do they visit your farm? Have you noticed many dead sparrows this winter? When was the produce buyer last on your farm? Did any sickness follow in a few days after his visit? All this information we hope you will have readily at hand to give to your local veterinarian so that we can complete a rapid survey of the county."

Dr. Wickwire went over the visible symptoms of European fowl pest and explained in detail to the veterinarians present last night.

Briefly stating the visible symptoms are, he said:

"1. Sickness of bird. 2. drooping wings. 3. Feathers hanging loose on lower part of the body. 4. Hard for the chickens to breathe due to the

## Movies

Bebe Daniels at Princess

Bebe Daniels comes to the Princess theatre today as the star in the Paramount picture, "Miss Bluebeard," a screen version of the Broadway stage hit by Avery Hopwood.

Robert Frazer, Raymond Griffith and Kenneth MacKenna have prominent supporting roles in the production which has to do with a charming French actress, bound for England on a holiday—and by the time she reaches dear old Lumbon has two husbands to account for.

Here's Bebe in the kind of role that made the old Harold Lloyd comedies famous—Bebe in a story that couldn't have suited her better if it was written especially for her.

Frank Tuttle directed the picture. Townsend Martin wrote the scenario. Others in the cast are Martha Madison, Daina Kane, Lawrence D'Orsay, Florence Billings and Ivan Simpson.

### "Broken Laws" Castle

"Broken Laws," the splendid photoplay presented by Mrs. Wallace Reid, now running at the Castle theatre, boasts a cast that contains not only the best talent in Movieland, but many who are noted in humanitarian work as well.

One of the latter is Judge Henry Neil, internationally known as the "father" of the Mother's Pension Movement. Judge Neil was so impressed by the story of "Broken Laws," that he volunteered to play the role of criminal judge in the production.

"Broken Laws" deals with the necessity for law observance and respect for the laws, particularly as it affects children. It combines the theme of Mother Love and Respect of Law in a virile, dramatic story of two families of a middle west town. What lack of law observance meant to the children of those two families is told in a masterful manner.

excess of mucus in the nose and throat which is characteristic of this disease. They breathe largely through mouth rather than nose. They extend head, shake it and throw out this mucus to clear the air passages. 5. Tendency for the bird to sit down a large part of the time. 6. Head and neck seems to be drawn deep into the feathers and body. "From this position they extend the head almost horizontal, shake the head to clear the air passage of accumulated mucus, take a few breaths through a practically open mouth, then settle back to original position. Head and neck tucked down. In a short time it is again extended its head and neck in a different position, almost upright, shakes its head as before, opens mouth as wide as possible, breathes a few times, settles back to the original position. If we now arouse the bird to a standing position its head will be carried low and in some cases the bill will touch the floor, mark drooping of tail and wings and extreme looseness of feathers on lower part of the body due to diminishing vitality. You will also notice an excessive weeping of clear tears.

"When a normal chicken sits its feet are parallel, but now they begin to spread their toes out for support. If the bird gets up he will have what might be called a rocking motion. His gait is similar to that of a person afflicted with locomotor ataxia. Oft times legs give way and chicken depends upon support of wing."

## SAYS COLLINS WILL NOT COME OUT ALIVE

Continued from Page One

twelfth day of Collins' imprisonment. Dr. W. H. Hazlett, Chicago specialist, said he is positive Collins still lives. Tests made through amplifiers attached to the light wire which illuminates the prisoner's recorded sounds which Hazlett is confident were respiration sounds.

Hazlett judged from the frequency of the breathing, that though suffering from his confinement, Collins was not a victim of pneumonia. Patients with this disease breathe about forty times a minute, he said. Collins' breathing was recorded from 20 to 22 times.

H. T. Carmichael, in charge of shaft operations, announced at a secret meeting held among leaders in the rescue last night that the shaft had sunk 38 feet. His estimate of reaching Collins by Thursday was unchanged. Repeated interruptions to explore new crevices delayed the work he said.

The secret conference was called to make a complete survey of the work accomplished and what still was to be done. Results of the meeting were not announced.

The court of inquiry was to assemble at Cave City at 10 a. m. it is

empowered to hold its sessions at any place it elects and is expected to adjourn to Sand Cave for its session.

The court has all the authority of a court martial except that of punishing offenders.

No particular line of inquiry will be followed by the court. It merely will take testimony from such witnesses as have accusations to make and then offer its recommendations for action.

It comprises Brig. General H. H. Denhardt, Lieut. Col. H. J. Stites of Louisville; Maj. W. H. Jerry, Bowling Green; Captain John A. Tallan, Springfield, Ky.; Capt. Julius A. Hopmiller and Captain Alex M. D. Haney also of Bowling Green.

Col. Stites is the man who ordered arrest of "Hard Boiled" Smith in France. Smith, then a captain, was in charge of prison camps.

Governor Fields has asked recall of one press representative from Cave City who published reports that people of the vicinity doubted anyone ever had been in the cave. He branded the report as "suspicious."

Another newspaper man on the scene Thomas Kilian of Chicago, had a death threat note tossed through the transom of his hotel room last night. It read:

"If you don't stop writing that stuff about my stopping the workers from reaching Floyd and get out of town, you're going to wake up and find yourself dead."

## AILMENTS OF YOUNG GIRLS

Relieved by Lydia E. Pinkham's Vegetable Compound School Teacher's Experience

Evanston, Wyoming.—"A few years

ago I had troubles every month such as girls often have, and would suffer awfully every time. I was teaching school and it made it hard for me as I had to go to bed for two or three days. One day my mother suggested that I take Lydia E. Pinkham's Vegetable Compound, which I did, and it did wonders for me.

In the course of a year I married and after my first baby was born I got up too soon and it caused a displacement. This troubled me so that I could hardly walk or do my housework. I knew what the Vegetable Compound did for me before so I took it again. It strengthened me and now I have five little kiddies. The eldest is six, the baby is five months old and a boy of five years. I do all my own housework, washing and ironing, and I never felt better in my life. I owe my health to your wonderful medicine and I recommend it to all my friends."—Mrs. VERBENA CARPENTER, 127 2nd Avenue, Evanston, Wyoming.

A Song of Thanksgiving—  
Of that men would praise the  
Lord for his goodness, and for  
his wonderful works to the  
children of men! O come, let us  
sing unto the Lord; let us come  
before his presence with  
thanksgiving. For he is our  
God, and we are the people of  
his pasture. Psalm 107: 8; 95:  
1, 2, 7.  
Prayer—We would bless the  
Lord at all times. May this  
praise be continually in our  
mouths.

## The Right Spirit

Cultivating a fraternal spirit has  
much to do with the success of any  
community and Rushville is no ex-  
ception.

Where the population is limited,  
the selfishness or indifference of a  
single individual exerts a depressing  
effect upon others and in time per-  
meates the whole community.

Men and women who heartily want  
to advance the interests of them-  
selves and their neighbors find it  
difficult to work to advantage when  
disaffected ones are continually  
throwing a wet blanket over every  
new project that is proposed.

Investigation and discussion are  
both commendable and much to be  
desired when something for commu-  
nity betterment is proposed, but pull-  
ing back in the process has the same  
effect as a halting horse.

The load cannot be pulled without  
the combined effort of every one  
hitched to the program of advance-  
ment, and pulling in the opposite di-  
rection, or even refusing to pull,  
renders ineffective the efforts of  
those who are trying to do something

worthwhile for the benefit of every-  
one.

And all too often the citizens who  
are the first to criticize what has  
been done are the ones who con-  
tribute nothing in thought, time or  
money to the enterprise designed to  
better the welfare of everyone.

The spirit that wins is the spirit  
that knows no dissension but causes  
men to work together in harmony—  
all pulling together in the same di-  
rection.

## Teaching Responsibility

School savings bank balances in-  
creased from \$11,807,000 to \$20,  
435,000 during the year ending June  
30, says an American Bankers' As-  
sociation report. The number of  
savings bank pupils increased 328,  
475 or almost 17 percent. In one  
group of 400 districts the total num-  
ber of pupils increased 4 percent,  
pupil bank participation 8 percent,  
collections 23 percent and bank bal-  
ances 44 percent. With the growing  
sense of responsibility, school honor  
rolls have grown from less than 30  
percent to more than 33 percent.

Many an irresponsible man has  
been cured by giving him something  
to do. Many a "bad" boy, many a  
rebellious girl, can be started on the  
safe road by the responsibility of a  
bank account. No child was ever  
helped by being robbed of the privi-  
lege of property; the two dangerous  
extremes of society are the sub-  
merged few who have been so robbed  
and the exotic few who have so  
much that things have no intrinsic  
meaning or value. This school bank  
account idea beats all the languages,  
dead or alive, for developing charac-  
ter and social stamina. Let's have  
more of it; not for the riches them-  
selves—we're rich enough, as a  
nation—but for what it will do in  
teaching responsibility.

## Only One Danger

That we are entering a new era of  
prosperity seems to be the concen-  
sus of opinion all over our country.

Confidence in the sanity and solid-  
ity of our national administrations,  
is the foundation for this belief.

The great improvement in the sta-  
tus of agriculture is having a mark-  
ed influence on all industry.

Over-optimism, however, which  
often breeds speculation and infla-  
tion, should be carefully guarded  
against.

## SAFETY SAM

Trains and trolley cars'll bust up a  
fine new limousine just as quick as  
1913 Lizzie, thus showin' that they  
aint't least bit particular!

## Hunt's Washington Letter

BY HARRY R. HUNT  
NEA Service Writer

Washington—Radio cannot  
yet compete with newspaper  
person in the broadcasting of  
national news, in the belief of  
President Coolidge.

White House opinion and White  
House comment, therefore, will  
continue to be broadcast through  
the medium of Washington cor-  
respondents rather than through  
crystal sets and super hetero-  
dynes.

Radio interests, anxious to ex-  
tend the field of broadcasting to  
cover the most important news  
sources in business and govern-  
ment, have been most anxious to  
time President Coolidge up as a  
regular speaker on the air.

They have extolled his as the  
ideal radio voice. They have  
stressed the idea that via radio  
he could maintain virtually a per-  
sonal contact with the whole  
country.

The popular expression of ap-  
proval which followed the Presi-  
dent's speech on economy a week  
ago, in his address to the bureau-  
crats, which was broad-  
cast through a dozen stations,  
made the present seem an oppor-  
tune time for pushing the idea of  
developing what some have de-  
scribed as a "wireless president."

Regular radio addresses, once a  
month, twice a month—were sug-  
gested. But, whether from con-

servativeness or canniness, no one  
knows. Coolidge shook his head  
and said: "I am able to broadcast  
my views very effectively through  
the newspaper men." He said: "I  
do not believe there is any neces-  
sity for any fixed program of ra-  
dio talks by the president."

SECRETARY JIM DAVIS' de-  
sire to retire from the cabinet  
and then his re-decision to re-  
main at the head of the Depart-  
ment of Labor is causing his col-  
leagues to "give him a bit."

Jim, they say, reminds them of  
the fellow who rushed up to the  
ticket window just as the train  
was pulling in and shouted:  
"Give me a round trip ticket."

"Where to?" "Where to?" he  
demanded the ticket seller.  
"Why, back here, of course,"  
blamed the fellow.

"The ticket," Jim really wanted,  
they insist, was one that would  
bring him right back where he  
started from. And that's what he  
got.

ALEX P. MOORE of Pittsburgh  
and Madrid, American ambas-  
sador to Spain, is the first of  
our major "diplomats" to arrive  
in Washington to attend the  
Coolidge inauguration, March 4.

"The most severe punishment  
dealt out by Spanish justice,"  
Moore says, "is to be sentenced to  
jail over Sunday. That means the  
prisoner will miss the week's bull  
fight."

## Safe Fat Reduction

Why be fat? The answer of most  
fat people is that constant dieting  
is hard, continual exercise is tire-  
some and exhaustive—and then, too,  
it might be harmful to force the  
weight down. That was the old-  
fashioned idea. Today in Marmola  
Prescription Tablets all these diffi-  
culties are overcome. Just a pleas-  
ant little tablet after each meal and  
at bedtime causes fat to vanish.  
This modern method is easy, entails  
no dieting or exercising and has the  
added advantage of cheapness.

Get a box of these tablets and start  
taking them now. Within a short  
time you will be getting rid of fat  
steadily and easily without starva-  
tion diet or tiresome exercise. You  
will be comfortable and able to en-  
joy the food you like and want. Even  
after taking off many pounds, there  
will be no flabbiness or wrinkles  
remaining. You will feel 100  
percent better. All drug stores the  
world over sell Marmola Prescrip-  
tion Tablets at one dollar for a box  
or the Marmola Company, General  
Motors Building, Detroit, Mich.,  
will gladly send them to you on re-  
ceipt of the price.

The Spirit of  
Service and  
Good-will

President Dubois of the Western Electric Com-  
pany recently addressed 40,000 employes of his  
Company by radio as follows:

"Today we work in larger groups  
than our forefathers, because no  
one person and no small group can  
design and make and assemble and  
test and finally sell our finished  
product—the product which makes  
neighbors of a hundred million of  
our fellow citizens.

"In the great scheme of modern life,  
you and I are doing our full part.  
We are not parasites nor slackers.  
We are useful people. That alone  
makes our lives worth while.

"And because the work of each of  
us depends upon the skill and faith-  
fulness of others, none of us can be  
sufficient to himself."

The words of President Dubois might have been  
chosen specifically to apply to the Standard Oil  
Company (Indiana).

This Company is organized into a big group,  
because so small a group can handle the business  
of oil products on the vast scale which is re-  
quired by our complex civilization.

Only a large oil company can produce and dis-  
tribute gasoline and lubricating oils which pen-  
etrate to the most remote parts of the Middle  
West in such a way as to make possible the cir-  
culation of the millions of automobiles.

The Standard Oil Company (Indiana) is an es-  
sential part of the great scheme of modern life.  
Its experienced and trained personnel is of incal-  
culable value to the community. The spirit of  
service and good-will which inspires every em-  
ployee from the executive to the man at the  
furnest flung service station, is an important  
asset to society.

And because the service of the Standard Oil  
Company (Indiana) is performed with enthusiasm,  
energy and efficiency, the wheels of hundreds  
of other industries are kept running productively  
to serve the nation as a whole. For this Com-  
pany is an essential cog in the machinery of  
civilization.

Di-Jo Comes As A Great  
Relief To Sufferers From  
Chronic Indigestion

Don't suffer from indigestion. It's  
needless and dangerous. There isn't  
anything that makes one feel out  
of sorts so much as a stomach that  
isn't working properly. If you get  
up in the morning with that terrible  
taste in your mouth, irritable, out of  
sorts, you can wager a great deal  
that the cause lies with your stom-  
ach.

If you get up in the morning feel-  
ing that way, remember one thing—  
after you have eaten the heavy meal  
of the day you can prevent a repe-  
tition of that dragged out feeling in  
the morning by taking Di-Jo. This  
aid to digestion will relieve the sto-

mach of much of the work it is  
forced to do. It will permit it to rest  
and give it a chance to recover from  
too heavy work.

Take Di-Jo after each meal and  
you'll find your stomach will be able  
to digest your food properly and  
you'll feel much better yourself.

Go to your druggist today and get  
Di-Jo. It will mean your stomach  
troubles are practically over.

If you are troubled with constipa-  
tion take DI-VAC. It is sold by all  
druggists and is recommended as the  
proper laxative to be used in con-  
nection with Di-Jo if any is needed.

## MOSCOW HAS VERY LITTLE OPPOSITION

Independent Basketball Team Swings Through Moral Tournament up to Final Game

WINS FROM NEW PALESTINE

Victors Play to Finals With Only Five Men, Osterling Joining Squad For Last Game

The Moscow Independents won the Moral Independent tourney Saturday over New Palestine, when they defeated Morristown, 35 to 8; New Palestine 23 to 21 and Waldron 31 to 15.

The victors played to the finals with only five men, but Osterling came for the final game. The three Gossells and Reed shot goals from all angles, while Root and Osterling played a great game at guard. With the exception of the New Palestine game, there was little opposition for Moscow.

The summary of the two games: Moscow 23 New Palestine 21 P. Gossell F. Rushaupt Reed F. Hutchinson N. Gossell C. Wilkins Root G. Thompson C. Gossell G. Means

Field goals, P. Gossell 4, Reed 2, N. Gossell 4, C. Gossell, Rushaupt, 4, Hutchinson 3, Wilkins. Foul goals Reed, Hutchinson. Referee Luther. Score first half, New Palestine 15, Moscow 10.

Moscow 31 Waldron 16 Osterling F. Kolkunier Reed F. Marshall N. Gossell C. Worland C. Gossell G. Wagoner Root G. Madden

Substitutions, P. Gossell for Reed, Tillson for Wagoner. Field goals, Osterling 3, Reed 3, P. Gossell, N. Gossell 4, C. Gossell 3, Kolkunier 2, Marshall 2, Worland 2, Madden. Foul goals, N. Gossell 2, Reed, Marshall 2. Score first half, Moscow 9, Waldron 5. Referee Luther, umpire, House.

Paris—Rene Lacoste, ranking French tennis star, won the French covered court championships by taking the final round from Andre Gohier at 3-6, 6-1, 6-1, 3-6 and 6-4. Mlle. Lengien did not compete in the tournament and the woman's championship was won by Mme. Billout, who defeated Mlle. Conquet at 4-6, 6-3 and 6-1.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

## To Pay Amateurs

By HENRY L. FARRELL  
New York, Feb. 10—Another row over the subject of pure amateurism will result from the recommendation of Baron De Coubertin, President of the International Olympic Association, that amateur athletes to be given compensation for the time lost from their regular occupation while they are competing in meets.

The idea is not new. Sweden expressed approval of the suggestion more than a year ago and although there was a violent protest from other European nations, it was ramored in Paris last summer that the Swedish athletes were getting as much as they would have earned at their regular occupations while they were absent in Paris.

Baron De Coubertin was careful to make it clear that he was choosing a personal opinion and that he was not proposing an official attitude on the question.

Some of the smaller nations might be able to interest more youngsters in track and field athletics if competition could be made financially attractive, but there follows the important question—Who would pay them? Most of the European nations now have trouble getting the money to pay the transportation and the mere living expenses of an Olympic team, and even the United States was hard put to it to get funds last summer to send a team to Paris.

Perhaps the generosity of Los Angeles officials is bringing about a change in feeling on the other side. It will be recalled that Los Angeles, in asking for the 1928 games, agreed to transport all the foreign teams to and from Los Angeles, with the freight all paid. It might be that some of the foreign nations, who are willing to concede a few points about amateurism, figure that Los Angeles would be willing to pay the athletes the amount of their civilian salary.

When the international officials were discussing Los Angeles as a site for the 1928 or 1932 games, it was pointed out that Europe would be able to participate only on a very small scale because of the money that would be required to send a team clear across the globe to the Pacific Coast and because of the time that the athletes would lose from their occupations.

European athletes would have to spend about a month making the trip to and from their own port and at least three weeks or a month would be necessary to train for and compete in the games. It is a readily admitted fact that there are few athletes in Europe fixed so well financially that they could forego the pay-check for two months even if it didn't cost them anything to live during that time.

Pine-Tar and Honey Still Best for Chest Colds and Coughs

Our mothers and grandmothers would never be without pine tar syrup in the house for coughs, chest colds, etc. This was many years ago, but modern medicine has never been able to improve on this time-tested remedy. Doctors say the pine tar is hard to beat for quickly loosening and removing the phlegm and congestion that are the actual cause of the cough. At the same time pine-tar and honey soothe and heal all irritation and soreness.

The kind that has been used with never failing success in thousands of families for years is that known as Dr. Bell's Pine-Tar Honey. This is scientifically compounded of just the right proportions of pine-tar, honey and other quick-acting, healing ingredients which the best doctors have found to aid in quick relief. It contains absolutely no opiates, narcotics or harmful drugs, so can be given to young children—fine for bronchitis, croup, whooping cough, too. If you want the best, a medicine that often saves the severest cough overnight, be sure you get Dr. Bell's Pine-Tar Honey. It costs only 30c at any good drugstore.

## DOFE ON TICKETS

Oh, yes, B. E. Myers tells us that the ticket rule will be enforced to the letter next Friday night. There'll be a jam and then some and they're taking no chances. Here's the dope. You must have your ticket and you must not use the north door. Can't get in there and we have B. E.'s word for it, if you go there they'll send you to another door. Fact is the Rushville crowd will be taken care of at the north door. That's that. —Side Lights, Cville.

Remember also, that no plans are being made for special cars. Four hundred of the tickets were sent here for the game, and they are on sale at the high school office at fifty cents per.

Down at Washington the other night, the telephone office handled more calls than on election night, which shows that there is more interest in basketball than politics.

Connersville tackles Franklin Saturday night down at Franklin, but over at Connersville they are pointing more to the Friday night game. It should be a big week end for the Ikniks—mostly on the weak end.

THESE LIONS HAVE ONE BIG THING IN MIND. DON'T FOOL YOURSELF INTO BELIEVING THAT THEY HAVEN'T. THEY ARE GOIN' TO NIK THE IKNIKS.

Newcastle steps down to Shelbyville Friday night, and the way that the Trojans are playing, they will annex another victory.

Just can't get over that sectional drawing, in which Newcastle was given a clean ticket through the Anderson regionals. Muncie didn't fair so well, as they are to meet Anderson before advancing another notch.

## Game Lost or Won By Foul Goals

The game could have been won and lost a good many times had players on both teams hit the foul goals more consistently. Washington missed 13 chances at the goal, while Vincennes missed 7.

—Vincennes Sun

Those foul goals are one thing that has won games for Connersville and it is a part of their system to make their opponents foul. You Lions must watch that system and keep from fouling.

NEXT FRIDAY IS THE THIRTEENTH. A LUCKY TIME TO NIK THOSE IKNIKS.

There isn't much talk around here about that game Friday night over at Cville, because it seems to be a conceded fact that Rushville will win. The Ikniks made a miserable showing over here, and many fans are saving their money for the sectional tourney.

## Pump Pennies or Motor Dollars?

YOU can go bargain hunting for gas and get whatever you're looking for.

If you are fascinated with the saving of a penny or so per gallon at the moment of filling, there is a perfect forest of parti-colored pumps bristling on the highways where they'll gladly give you your wish.

But if you measure gas values in the larger terms of motor dollars—if you look beyond chickenfeed change to the yawning door of the overhaul shop—if you care for the comfort of quick, certain starting, smooth running and guaranteed protection from the engine-aging ravages of kerosene and free carbon—then you will turn in to the pumps of

## Silver Flash Gasoline

is the staple year-'round fuel of full vaporization, quick firing, velvet running, long mileage and positive immunity from kerosenish elements. Unlike heavy pump-cheap fuels because it requires no over-rich expensive mixture for running nor dangerous excess of priming to start.

Its consistent use saves actual dollars instead of dubious pennies.

## Aggravating, Isn't It?

To be in such a hurry to get some place, say to a basket ball game or show, and then to have the old bus to start missing right at the critical moment? And nine times out of ten it can be avoided if the car has proper attention before starting out.
